

## **Conservative MP and Senator visit the production set of “Cashing In” in Manitoba**

CFTPA members should be aware that the Association, in conjunction with On Screen Manitoba and Buffalo Gal Pictures, helped organize and facilitate a visit by Winnipeg Conservative MP Shelly Glover and Manitoba Conservative Senator Janis Johnson to the set of *Cashing In*, a half-hour comedy drama produced by Buffalo Gal Pictures for APTN and Canwest. Tara Walker of On Screen Manitoba attended the visit to ensure the delivery of key messages. Ms. Glover, formerly a member of the House of Commons Standing Committee on Canadian Heritage, sent us the following note following her visit:

**It was an absolute pleasure for me to visit the production set of *Cashing In*. I never realized until I came to the set that there are so many intricacies to making film. I was proud to see our Canadian film makers at work and I can now attest to their dedication and long hours. Film making also creates jobs and puts Canada on the map internationally. Know that I am even more convinced than ever of our need to promote and sustain Canadian film.**

**Thank you so much for giving me the opportunity to see your industry at work first hand.**

**Sincerely,**

**Shelly Glover
